SUBJECT: Disposition/Status of Items on DDA Check List  
of 6 May 1981

STAT

1. Centralized Software Applications Development

Closed out by a memo from D/ODP to the DDA of 7 May 1981.

2. Study on Existing Micrographics

Study initiated by 24 March memo from DDA appointing  
Chair of an Agency-wide task force to evaluate  
micrographics consolidation. Committee has been formed. Survey  
form was developed and distributed. Responses have been received  
and are being tabulated--some massaging is necessary. Strategic  
plan for micrographics in P&PD has been prepared. Subject turns  
out to be quite complex in terms of evaluation. Study pace will  
pick up after current, higher priority concerns are disposed of.

STAT

3. Agency-wide Training for IHS Professionals

Survey has been performed and results tabulated. Report is  
now in preparation; due 15 June.
